- Postbiotics
- Baobab Fruit Extract

- Zinc Oxide
- Myrothamnus
- Rooibos
- Olive Leaf Extract

- After foundation application, apply a small amount to the specific area needed with the preferred tool and blend into the skin.
- Can be applied before or after foundation, or on its own as a full coverage foundation.

- Dispense a small amount onto fingertips or an application method of your choice and dab evenly over desired areas.
- Can be reapplied throughout the day for additional coverage.

- Apply liberally to exposed areas before sun exposure. Using insufficient product will result in reduced sun protection.
- Reapply regularly to maintain protection, especially after swimming or toweling off.
